-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 12/8/2006 have been fully considered but they are not persuasive. Although the examiner agrees that the lower portion of element (69) is not a "washer", element (69a) is a washer and the o-ring (69b) is between the annular collar (portion of element 69 above element 69b) and the washer (69a). Therefore since the rejection is still based on Majima et al., the instant Office action has been made final.

Information Disclosure Statement

2. The information disclosure statement filed 1/26/2007 is acknowledged by the examiner.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 8, 11, 17, 20, 22, and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 5,129,489 (Majima et al.). Majima et al. discloses a valve for controlling fluids comprising a holder body (59), a receptacle (within element 59 in figure 3), a piezoelectric actuator unit (67FL), a hydraulic coupler module (69, 71, 71a), a positioning piston (69), an actuating piston (71a), a hydraulic coupler (71), a valve closure member (77), at least one valve seat (71c), a valve chamber (55), a return conduit (88c), a seal (69b) which is an o-ring, an annular groove (holds element 69b in figure 6), an annular collar (upper half of element 69 in figure 3), a positioning washer (69a), wherein the receptacle (within element 59 in figure 3) has a

first diameter (upper portion of element 59 in figure 3) and a second diameter (lower portion of element 59 in figure 3), wherein the seal (69b) is in the region of the second diameter (lower portion of element 59 in figure 3), and an insertion bevel (transition between the first diameter and the second diameter in figure 3).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
